

FOR IMMEDIATE RELEASE

Syrinx Announces SharePoint Webinar Series for 2009

Live Events to Cover SharePoint Workflows, Dashboards, Enterprise Search, and Content Management for External Sites and Intranets

WALTHAM, Mass., March 2, 2009 — Syrinx Consulting Corporation, an IT consulting and software development firm that delivers easy-to-use .Net and SharePoint applications, today announced its calendar of complimentary Webinar events covering popular aspects of [Microsoft Office SharePoint Server \(MOSS\) 2007](#). Events include:

“Breakthroughs in BI: The Power of [SharePoint Dashboards](#)” — Introduces business intelligence (BI) dashboards and key performance indicators (KPIs), discusses how these tools can be used to provide business insight at any enterprise level and provides real-world examples of ways SharePoint can be configured or built to serve as an effective business-reporting platform.

- [3/3/09](#)
- 7/14/09
- And 11/10/09

“SharePoint Workflows: Out-of-the-Box and Beyond” — Outlines how SharePoint workflows can be configured or built to manage common or complex business process automation. Discusses out-of-the-box workflows as well as when and how to create custom workflows using Visual Studio or SharePoint Designer.

- 4/7/09
- 8/18/09
- And 12/10/09

“[SharePoint Content Management: External Sites & Intranets](#)” — Discusses new functionality in SharePoint 2007 that enables enterprises to publish content from one area to another (for example, from a collaborative site to a portal), or to cost-effectively manage multilingual delivery of content on multiple intranet, extranet and Internet sites. The presenter will also outline using Master Pages and Page Layouts as reusable templates for a consistent look and feel.

- 5/26/09
- And 9/17/09

“Using SharePoint for Enterprise Search” — Enterprise search is a hot-button for companies looking to save time and money in 2009 by reducing the time it takes to find information. The event provides an overview of the third-party items and methods that companies can explore to add more depth to their search capabilities.

- 6/11/09
- And 10/20/09

Press or end-user organizations seeking to register for an upcoming Syrinx-hosted Webinar can do so at: <https://www.clicktoattend.com/home.aspx>. Each event will be posted and open for early registration approximately one month before the event date.

Syrinx Webinar Presenters

Ryan Thomas is the SharePoint Practice Director at Syrinx and has more than 11 years in the technology industry. He is the presenter for **SharePoint Workflows** and **Enterprise Search** Webinars. Prior to joining Syrinx in 2004, Ryan consulted with Monster.com and was a key contributor to the architecture and implementation of their migration to the Microsoft .NET platform.

Ian Dicker is Director of Architecture at Syrinx and has more than 20 years of software business experience. He is the presenter for **SharePoint Dashboards** and **Content Management** Webinars. Ian's career highlights include positions as architecture manager at Vistaprint, chief software architect at Intranets.com and principal engineer at AOL, where he helped pioneer componentized web browser technology that made the Internet accessible to millions of subscribers.

About Syrinx
